KEY PORTFOLIO DEVELOPMENTS

- Zalando announced its vision of being the starting point for fashion at their Capital Markets Day in late February, positioning its platform strategy where Zalando will scale by providing a platform with superior logistics and marketing services to its partners
- Millicom completed the listing of the company's shares on the Nasdaq Stock Market in New York, and later in the quarter announced the acquisition of Telefonica's operations in Panama, Costa Rica and Nicaragua, furthering the company's already strong position in the region, and accelerating its FMC strategy

INVESTMENT MANAGEMENT ACTIVITIES

- Total investments of SEK 1,048m during the quarter, whereof
 - SEK 889m in MatHem, Sweden's leading independent online grocery retailer
 - SEK 46m in Budbee and SEK 113m in other existing assets
- In April, Kinnevik has committed to invest another NOK 300m into Kolonial, whereof NOK 150m in the form of a convertible loan to the company and the remaining in secondary shares from early investors

FINANCIAL POSITION

- Net asset value of SEK 84.3bn (SEK 306 per share), up SEK 13.8bn or 20% during the quarter, primarily driven by positive share price development in Zalando as well as continued strong performance in Tele2
- Net debt position increased by SEK 1.1bn to SEK 4.0bn, mainly as a consequence of the investment in MatHem, resulting in leverage of 4.5% of Portfolio Value by the end of the quarter

Chief Executive's Review

Dear Shareholders,

The first quarter was characterized by solid operational performance in our companies and a significant recovery in Kinnevik's Net Asset Value. Zalando announced its ambitious plans to become the starting point for fashion in Europe, and Millicom made one of the largest acquisitions in the company's history in Central America. In line with our strategy to accelerate our private portfolio and double down on companies where we see strong potential, we invested SEK 0.9bn into MatHem and made follow-on investments in two of the Nordic companies that joined our portfolio last year - Budbee and, in April, Kolonial.

OUR FIRST QUARTER RESULTS

Kinnevik's Net Asset Value increased by 20% to SEK 84.3bn, or SEK 306 per share, in the first quarter, driven mainly by the strong recovery in the share price of Zalando, something that along with the fashion e-Commerce sector's multiple expansion contributed to an upwards revaluation of our shareholding in Global Fashion Group in the quarter. In addition, Tele2 has continued its solid performance on the back of the closing of the Dutch merger and the revised synergy estimates in relation to the Com Hem merger.

The value of our unlisted assets increased to SEK 14.2bn, with the fair value of Global Fashion Group positively impacted by strong sales growth, improving profitability, and the recovery of GFG's listed peers.

BUILDING THE STARTING POINT FOR FASHION

Zalando presented its 2018 full-year results at the end of February and hosted a Capital Markets Day to present its strategic priorities going forward. It was rewarding to see the company making a strong comeback in the fourth quarter, growing revenues by 25 percent with a 7 percent EBIT margin.

Management is set on one clear goal: to become the starting point for fashion and thereby growing its GMV to EUR 20bn by 2023/24. To achieve this, Zalando aims to deepen its relationships with customers by tailoring its offering and focusing on building an even better shopping experience for its most loyal customers. The company also clarified its ambitions with its Partner Program, where brands can sell directly to customers through Zalando's platform. In 2018, more than 250 partners were integrated with Zalando's Partner Program, accounting for about 10% of GMV. Zalando aims to increase this share to 40% by 2023/24.

Zalando also announced that Cristina Stenbeck is proposed to return as Chairman of the Supervisory Board at the company's AGM in May, which is excellent news for both Zalando, Kinnevik and both companies' shareholders. With Cristina at the helm of Zalando's Supervisory Board, she will support Zalando to see through their bold vision, and keep the Supervisory Board focused on long-term value creation through an efficient capital allocation framework, continued creativity and innovation, building deep partnerships, and investing in Zalando's platform strategy.

CONNECTING CONSUMERS IN THE NORDICS AND IN LATINAMERICA

Millicom and Tele2 are both capturing an ever-increasing demand for data and connectivity through their competitive fixed and mobile offerings. In support of that strategy, Millicom announced one of the largest acquisitions in its history in the quarter, acquiring leading mobile assets in Panama,

Costa Rica, and Nicaragua, and now has both fixed and mobile operations in each of its nine Latin American markets.

Tele2 grew underlying EBITDA by 8 percent, driven by initial synergies from the Com Hem merger, and began cross-selling services between the mobile and fixed customer bases.

DOUBLING DOWN IN OUR PRIVATE PORTFOLIO

Last year, we invested in ten new companies across our focus sectors, and in the first quarter these ten were joined by MatHem in which we invested SEK 0.9bn.

Our ambition is to actively support our portfolio companies and over time increase our stakes as they grow and perform. In line with this strategy, we have invested additional capital in two of our Nordic companies, Budbee and Kolonial.

Since our initial investment, Budbee has tripled its number of deliveries in Sweden and expanded to Finland and Denmark. With the additional capital raised, Budbee now plans to continue its geographic expansion into the Netherlands, and we look forward to continuing to support the Budbee team on its exciting next steps.

Our follow-on investment in Kolonial is underpinned by the company's excellent progress since our initial investment some nine months ago. Kolonial has successfully completed the installation of their proprietary warehouse solution and is on a strong growth trajectory. We continue to see significant upside in the market opportunity, and have a strong conviction in the team's ability to capture it.

BALANCE SHEET AND SHAREHOLDER REMUNERATION

We end the quarter with a net debt position of SEK 4.0bn, corresponding to a leverage of 4.5% of our Portfolio Value, well within our leverage target. The Board of Directors has recommended a dividend of SEK 8.25 per share to be approved by the Annual General Meeting on 6 May, to be paid out in two tranches in May and November respectively, where the first tranche is expected to be paid around 14 May 2019.

CONCLUDING REMARKS

With a long-term view and an investment strategy underpinned by strong conviction in our portfolio companies and the entrepreneurs leading them, it was rewarding to see that the first quarter was characterized by strong performance in our portfolio companies. I very much look forward to continuing to execute on our strategy, and I hope to meet many of you on 6 May at our Annual General Meeting in Stockholm, to tell you more about how we aim to continue to create long-term value for our shareholders.

Georgi Ganev
Chief Executive Officer

Kinnevik in summary

Kinnevik is an industry focused investment company with an entrepreneurial spirit. Our purpose is to build digital businesses that provide more and better choice. We do this by working in partnership with talented founders and management teams to create, develop and invest in fast growing businesses in developed and emerging markets. We believe in delivering both shareholder and social value by building companies that contribute positively to society. Kinnevik was founded in 1936 by the Stenbeck, Klingspor and von Horn families. Kinnevik's shares are listed on Nasdaq Stockholm's list for large cap companies under the ticker codes KINV A and KINV B.

DIVIDEND AND CAPITAL STRUCTURE

As at 31 March 2019, Kinnevik carried net debt of SEK 4.0bn, corresponding to a leverage of 4.5% of portfolio value.

For the financial year 2018, the Board of Directors of Kinnevik, Millicom and Tele2 have recommended the following dividends, to be split on two payment occasions:

Kinnevik's part of dividend recommended to be paid from listed investee companies		Amount (SEKm)
Millicom	USD 2.64 per share	926
Tele2	SEK 4.40 per share	825
Total ordinary dividends		1 751

Recommended cash distribution to Kinnevik's shareholders		Amount (SEKm)
Ordinary dividend	SEK 8.25 per share	2 272

Note: Millicom's dividend translated with a USD/SEK exchange rate of 9.27

Kinnevik's Board of Directors recommends to pay the dividend with SEK 4.25 in May and SEK 4.00 in November.

FINANCIAL TARGETS

Attractive Returns

Kinnevik's objective is to generate a long term total return to our shareholders in excess of our cost of capital. We aim to deliver an annual total shareholder return of 12-15% over the business cycle.

Low Leverage

Given the nature of Kinnevik's investments, our goal is to carry low leverage, not exceeding 10% of portfolio value.

Increasing Shareholder Remuneration

Kinnevik aims to pay an annual dividend growing in line with dividends received from our investee companies and the cash flow generated from our investment activities.

Kinnevik will make share buybacks when our shares trade at a significant discount to their intrinsic value, as perceived by Kinnevik, and the company has significant net cash (taking into consideration its dividend expectations, net investment plan and operating cost).

EVENTS AFTER THE REPORTING PERIOD

Kinnevik has committed to invest NOK 300m into Kolonial, whereof NOK 150m in the form of a convertible loan to the company and the remaining NOK 150m in secondary shares from early investors. The secondary purchase is subject to certain conditions and is expected to close during the first half of May.

TOTAL SHAREHOLDER RETURN

Past 30 years

Past 10 years

Past 5 years

Past 12 months

Total shareholder return is calculated on the basis of shareholders reinvesting all cash dividends, dividends in kind and mandatory share redemption proceeds into the Kinnevik share.

³ Ownership on a fully diluted as converted basis.

⁴ Supported by complementary valuation methods.

FAIR VALUES AS AT 31 MARCH 2019

At the end of March the fair value of Kinnevik's unlisted financial assets amounted to a total of SEK 14,234m, to be compared with an accumulated invested amount (net after dividends received) of SEK 13,916m. The change in fair value, plus dividends received, amounted to SEK 1,286m in the quarter, as specified in the table on the previous page.

LIQUIDATION PREFERENCES

Kinnevik's unlisted investee companies adopt different financing structures, and may at times issue shares with liquidation preference rights. Liquidation preferences determine how proceeds from a liquidity event are allocated between shareholders. This allocation may become increasingly complex as a company raises several funding rounds at different valuations. As Kinnevik's participation can vary between funding rounds, Kinnevik's share of proceeds may significantly deviate from its percentage ownership of the investee company's issued equity. Accordingly, an increase or decrease in value of an investee company's equity where liquidation preferences are applicable may result in a disproportionate increase or decrease in the fair value of Kinnevik's shareholding. An unlisted investee company's transition into a publicly listed company may also affect the value of Kinnevik's shareholding due to the dismantling of such provisions.

GLOBAL FASHION GROUP

The fair value of Kinnevik's 35 percent shareholding in **Global Fashion Group** ("GFG") amounts to SEK 4,069m, based on a total value of GFG's fully diluted equity of EUR 1.0bn. The valuation of GFG implies an average multiple of 0.7x the company's last twelve months' net revenues as at 31 December 2018. The implied average multiple corresponds to a 43 percent discount to a group of listed and profitable developed market fashion e-commerce peers (compared to 44 percent as at 31 December 2018, pro forma the disposal of Namshi), and discounts vary between GFG's different regional businesses. The implied discount not only reflects differences in historic growth and profitability, but also Kinnevik's assessment of equity risk premiums across GFG's partly emerging market focused footprint.

OTHER E-COMMERCE

The fair value of Kinnevik's 15 percent shareholding in **Kolonial** amounts to SEK 325m, based on a total value of Kolonial's equity of NOK 2.0bn. The valuation is based on a funding round and secondary transaction during the third quarter of 2018.

The fair value of Kinnevik's 38 percent shareholding in **MatHem** amounts to SEK 889m, based on a total value of MatHem's equity of SEK 2.35bn. The valuation is based on a funding round during the first quarter of 2019.

The fair value of Kinnevik's 24 percent shareholding in **Budbee** amounts to SEK 224m, based on a total value of Budbee's equity of SEK 938m. The valuation is based on a funding round during the first quarter of 2019.

MARKETPLACES

The fair value of Kinnevik's 17 percent shareholding in **Quikr** amounts to SEK 1,751m, based on a total value of Quikr's

fully diluted equity of USD 1,101m. The valuation of Quikr is based on a discounted cash flow analysis. A number of all-stock transactions have been concluded at an approximate 46 percent premium to the USD 1,101m valuation, but due to the lack of a significant cash element in each of these transactions they are not considered as sufficiently robust to be used as basis for the assessment of the fair value of Kinnevik's shareholding.

The fair value of Kinnevik's 61 percent shareholding in **Saltside** amounts to SEK 201m. The valuation of Saltside is based on a discounted cash flow analysis.

The fair value of Kinnevik's shareholding in **Omio** amounts to SEK 464m and is based on a funding round during the third quarter of 2018.

The fair value of Kinnevik's 15 percent shareholding in **Travelperk** amounts to SEK 252m and is based on a funding round during the fourth quarter of 2018.

FINANCIAL SERVICES

The fair value of Kinnevik's 22 percent shareholding in **Bayport** amounts to SEK 1,226m, based on a total value of Bayport's fully diluted equity of USD 608m. The valuation of Bayport is based on price-to-earnings and price-to-book multiples of a group of listed financial services peers, and is supported by a funding round during the third quarter of 2017.

The fair value of Kinnevik's 16 percent shareholding in **Betterment** amounts to SEK 1,206m, based on a total value of Betterment's fully diluted equity of USD 800m. The valuation of Betterment is based on a discounted cash flow analysis, and is supported by a funding round during the third quarter of 2017.

The fair value of Kinnevik's 36 percent shareholding in **Bima** amounts to SEK 987m, based on a total value of Bima's fully diluted equity of approximately USD 300m. The valuation is based on a funding round in the first quarter of 2019.

The fair value of Kinnevik's shareholding in **Bread** amounts to SEK 312m and is based on a funding round during the third quarter of 2018.

The fair value of Kinnevik's 7 percent shareholding in **Deposit Solutions** amounts to SEK 282m, based on a total value of Deposit Solution's equity of approximately EUR 400m. The valuation is based on a funding round during the third quarter of 2018.

The fair value of Kinnevik's shareholding in **Monese** amounts to SEK 216m and is based on a funding round during the third quarter of 2018.

HEALTHCARE

The fair value of Kinnevik's 20 percent shareholding and other interest in **Babylon** amounts to SEK 537m, and is based on a funding round during the second quarter of 2017.

The fair value of Kinnevik's 10 percent shareholding in **Livongo** amounts to SEK 732m, and is based on a funding round during the second quarter of 2018.

The fair value of Kinnevik's 8 percent shareholding in **Cedar** amounts to SEK 148m, and is based on a funding round during the second quarter of 2018.

Notes for the Group (SEKm)

NOTE 1 ACCOUNTING PRINCIPLES

The consolidated financial statements are prepared in accordance with the International Financial Reporting Standards (IFRS), as adopted by the EU. This report was prepared in accordance with the Annual Accounts Act and IAS 34, Interim Financial Reporting. Information in accordance with IAS 34, Interim Financial Reporting is provided in the notes as well as on other places in the interim report.

From 1 January 2019 Kinnevik applies IFRS 16 Leases. The transition to IFRS 16 resulted in assets and liabilities increasing by SEK15m. The accounting principles and calculation methods applied in this report are the same as those described in the 2018 Annual Report.

NOTE 2 RISK MANAGEMENT

Kinnevik has a model for risk management, which aims to identify, control and reduce risks. The identified risks and how they are managed are reported to the Kinnevik Board of Directors on a quarterly basis.

Kinnevik's financing and management of financial risks is centralised within Kinnevik's finance function and is conducted on the basis of a finance policy established by the Board of Directors. Kinnevik is exposed to financial risks mainly in the form of changes in the value of the stock portfolio, changes in currency and interest rates, and financing risks. Operational risks are managed within each company with an operating business. Kinnevik is also exposed to political risks since the companies in which Kinnevik has invested have substantial operations in less developed markets in Latin America and South East Asia.

For a more detailed description of Kinnevik's risks and uncertainties, as well as risk management, refer to Note 17 for the Group in the 2018 Annual Report.

NOTE 3 RELATED PARTY TRANSACTIONS

Related party transactions for the period are of the same character as the transactions described in the 2018 Annual Report.

NOTE 4 FINANCIAL ASSETS ACCOUNTED AT FAIR VALUE THROUGH PROFIT AND LOSS

Kinnevik's unlisted holdings are valued using IFRS 13 and the International Private Equity and Venture Capital Valuation Guidelines, whereby a collective assessment is made to establish the valuation method that is most suitable for each individual holding. Firstly, it is considered whether any recent transactions have been made at arm's length in the relevant company. For new share issues, consideration is taken to if the newly issued shares have preferential rights, such as liquidation preferences to the company's assets senior to earlier issued shares. Secondly, changes or events in the market or in the relevant company subsequent to the latest transaction are assessed, and to the extent such changes or events are perceived to imply a change in the fair value of Kinnevik's investment, alternative methods are applied and the valuation is adjusted accordingly. For companies where the valuation is not based on arm's length transactions, a valuation is conducted either by applying relevant multiples to the company's historical sales or profits, or by discounting future expected cash flows. When performing a valuation based on multiples, consideration is given to differences in size, historic growth, profitability and geographic exposure.

The valuation process for Kinnevik's unlisted holdings is led by a valuation team independently from the respective holding's investment manager. Accuracy and reliability of financial information used in the valuations is ensured through continuous contacts with the management of each holding and regular reviews of their accounts. Information and opinions on applicable valuation methods are obtained periodically from investment managers and well-renowned investment banks and audit firms. The valuations are discussed with the CFO and CEO after which a proposal is discussed with the Audit Committee and the external auditors. After their scrutiny and potential adjustments, the valuations are approved and included in Kinnevik's accounts.

Below is a summary of the valuation methods applied in the accounts as per 31 March 2019:

Company	Summary
Global Fashion Group	<ul style="list-style-type: none"> Sum-of-the-parts applying varying multiples on each region's last twelve months' net revenues Peer group includes Zalando, Asos and Boozt Implied average multiple of 0.7x, corresponding to an aggregate discount of 43% Fully diluted equity value of EUR 1.0bn, liquidation preferences considered in valuing Kinnevik's shareholding
Kolonial	<ul style="list-style-type: none"> Latest transaction value from funding round during the third quarter of 2018 Equity value of NOK 2.0bn
MatHem	<ul style="list-style-type: none"> Latest transaction value from funding round during the first quarter of 2019 Equity value of SEK 2.35bn
Budbee	<ul style="list-style-type: none"> Latest transaction value from funding round during the first quarter of 2019 Equity value of SEK 938m
Quikr	<ul style="list-style-type: none"> Discounted cash flow analysis Fully diluted equity value of USD 1,101m
Saltside	<ul style="list-style-type: none"> Discounted cash flow analysis
Omio	<ul style="list-style-type: none"> Latest transaction value from funding round during the third quarter of 2018
Travelperk	<ul style="list-style-type: none"> Latest transaction value from funding round during the fourth quarter of 2018
Bayport	<ul style="list-style-type: none"> Peer group's price-to-earnings and price-to-book multiples Supported by latest transaction value from funding round during the third quarter of 2017 Fully diluted as-converted equity value of USD 608m
Betterment	<ul style="list-style-type: none"> Discounted cash flow analysis Supported by latest transaction value from funding round during the third quarter of 2017 Fully diluted equity value of USD 800m
Milvik/BIMA	<ul style="list-style-type: none"> Latest transaction value from funding round during the first quarter of 2019 Fully diluted equity value of approximately USD 300m
Bread	<ul style="list-style-type: none"> Latest transaction value from funding round during the third quarter of 2018
Deposit Solutions	<ul style="list-style-type: none"> Latest transaction value from funding round during the third quarter of 2018 Fully diluted equity value of EUR 400m
Monese	<ul style="list-style-type: none"> Latest transaction value from funding round during the third quarter of 2018
Babylon	<ul style="list-style-type: none"> Latest transaction value from funding round during the second quarter of 2017
Livongo	<ul style="list-style-type: none"> Latest transaction value from funding round during the second quarter of 2018
Cedar	<ul style="list-style-type: none"> Latest transaction value from funding round during the second quarter of 2018

For Global Fashion Group, an increase in the multiple by 10% would have increased estimated fair value by SEK 186m. Similarly, a decrease in the multiple by 10% would have decreased estimated fair value by SEK 185m. Should Global Fashion Group have been valued using the same multiples and foreign exchange rates as at 31 December 2018, the fair value would have amounted to SEK 3,418m, SEK 651m lower than the assessed fair value as at 31 March 2019.

When establishing the fair value of other financial instruments, methods that in every individual case are assumed to provide the best estimation of fair value have been used. For assets and liabilities maturing within one year, a nominal value adjusted for interest payments and premiums is assumed to provide a good approximation to fair value.

This note includes information per class of financial instruments that are valued at fair value, distributed in the levels stated below:

- Level 1:* Fair value established based on listed prices in an active market for the same instrument.
- Level 2:* Fair value established based on valuation techniques with observable market data, either directly (as a price) or indirectly (derived from a price) and not included in Level 1.
- Level 3:* Fair value established using valuation techniques, with significant input from data that is not observable in the market.

The total number of votes for outstanding shares amounted at 31 March 2019 to 579,516,338 excluding 536,469 class B treasury shares.

The Board has authorization to repurchase up to a maximum of 10% of all shares in the Company over 12 months, ending at the AGM of 2019. There are no convertibles or warrants in issue.

DEFINITIONS OF ALTERNATIVE PERFORMANCE MEASURES

Kinnevik applies the Esmā Guidelines on Alternative Performance Measures (APM). An APM is a financial measure of historical or future financial performance, financial position, or cash flows, other than a financial measure defined or specified in the applicable financial reporting framework. For Kinnevik's consolidated accounts, this typically means IFRS.

APMs are disclosed when they complement performance measures defined by IFRS. The basis for disclosed APMs are that they are used by management to evaluate the financial performance and in so believed to give analysts and other stakeholders valuable information. Definitions of all APMs used are found below. Reconciliations of a selection of APMs can be found on Kinnevik's corporate website www.kinnevik.com.

APMs in Kinnevik's interim report include:

Active customers	Number of customers having made at least one order within the last 12 months
Debt/equity ratio	Interest-bearing liabilities including interest-bearing provisions divided by shareholders' equity
Equity ratio	Shareholders' equity including non-controlling interest as percentage of total assets
Gross merchandise value, GMV	Total value of all sale transactions during the period, including taxes but excluding shipping costs
Internal rate of return, IRR	The annual rate of return calculated in quarterly intervals on a SEK basis that renders a zero net present value of (i) fair values at the beginning and end of the respective measurement period, (ii) investments and divestments, and (iii) cash dividends and dividends in kind
Investments	All investments in listed and unlisted financial assets, including loans to portfolio companies
Leverage	Net debt as a percentage of portfolio value
Net asset value, NAV	Net value of all assets on the balance sheet, equal to the shareholders' equity
Net cash/(net debt)	Interest bearing receivables (excluding net outstanding receivables relating to portfolio companies), short-term investments and cash and cash equivalents less interest-bearing liabilities including interest-bearing provisions and unpaid investments/divestments
Net investments	The net of all investments and divestments in listed and unlisted financial assets
Net merchandise value, NMV	Gross merchandise value after actual and provisioned returns and rejections
Onsite volumes	The value of transactions completed on a company's own website and app
Portfolio value	Total book value of fixed financial assets accounted at fair value through profit and loss
Total shareholder return, TSR	Annualized total return of the Kinnevik B share on the basis of shareholders reinvesting all cash dividends, dividends in kind, and mandatory share redemption proceeds into the Kinnevik B share, before tax, on each respective ex-dividend date. The value of Kinnevik B shares held at the end of the measurement period is divided by the price of the Kinnevik B share at the beginning of the period, and the resulting total return is then recalculated as an annual rate

KINNEVIK ANNUAL GENERAL MEETING 2019

The Annual General Meeting will be held on 6 May 2019 in Stockholm. Further details on how to register could be found at Kinnevik's website, www.kinnevik.com.
